

Iron Tigers
P.O. Box 96
North Easton, MA

Dear Friend,

The “Iron Tigers (FRC #4176)” is the Oliver Ames High School co-ed robotics team similar to a high school sports team, engaged in bringing a passion for Science, Technology, Engineering, and Mathematics (STEM) to Oliver Ames and our community. We participate in annual robotics competitions and community service activities. Through these experiences, OA students learn important technical and interpersonal skills that will help them become professionals and reach their individual career goals.

Studies have shown participants in “FIRST Robotics Competitions” are:

- ♦ **Three times more likely to major in Engineering**
- ♦ **More than twice as likely to pursue a career in science or technology**
- ♦ **More than twice as likely to volunteer in their communities.**

As a non-profit organization, the team depends on the funding provided by sponsors that recognize the need for a workforce trained in the fields of science, engineering, and business. The team requires approximately \$25,000 to cover our yearly budget such as competitions fees, robotic components and travel expenses. Organizations that choose to support us through a tax-deductible donation are publicly acknowledged in our media, our promotional material and on the robot itself. Last year alone, our sponsors were visible to thousands of individuals through print, social media, at competitions and at all our community events. By lending support and funding, sponsors can guarantee that students will leave their high school with the skills necessary to succeed as well as lead in today’s society.

There are three ways you can donate:

- 1) Fill out the form below and mail us a check. We will contact you directly and add you to our donors list.**
- 2) Scan the QR code below to donate using Venmo.**
- 3) Visit our website and donate on our Donations page.**

If you have any questions, reach out to president@eastonrobotics.org.

Sincerely,
Iron Tiger Robotics Team #4176
